Jacob Cuthbert, P.E.
Civil Engineer II

HOT-MIX ASPHALT SURFACE REMOVAL AND REPLACEMENT, 2", SPECIAL

This item shall be in accordance with Sections 406 and 440 of the Standard Specifications, applicable project Special Provisions, and as modified herein.

The work shall consist of the grinding the existing pavement to a depth of two (2) inches, sawcutting, cleaning the existing milled pavement, placing of tack coat and Hot-Mix Surface Course, Mix "D", N50 at areas directed by the Engineer. Minimum size of areas will be 8 feet wide x 10 feet long. Tack coat application rate shall be 0.1 gal/sy.

All areas that are milled must be paved to the surface within the same calendar day. Any areas that are milled and not paved on the same calendar day will not be measured for payment.

This work shall be paid for at the Contract Unit Price per square yard for HOT-MIX ASPHALT SURFACE REMOVAL AND REPLACEMENT, 2", SPECIAL, which price shall include all labor, equipment, materials, sawcutting, clean up, disposal of material, and incidentals required to complete the work described above.
